

This will be my first year coaching in the Rancho Mirage High School football program this season. I am passionate about football and love all aspects of the game. I never played football in college, but I have ten years of experience with the sport (eight years in flag football and two years in high school football). A devastating injury my junior year ended my career in the sport, but I developed a coaching desire after I graduated from college in 2012.

I was born in the Central Valley in a town called Porterville. I played many different sports in my youth, but football has always been my favorite. I played running back and line backer for most of my career, but I also played wide receiver, defensive end and safety.

I am looking forward to coaching this year and being a part of this great and young program in the Coachella Valley. GO RATTLERS!!
