

RMHS Community,

It is with mixed emotions that my work at Rancho Mirage High School and in PSUSD has come to an end. I have always had ambitious goals and have accepted a position as Secondary Education Director in the Moreno Valley Unified School District. This opportunity will allow me to continue my growth as a professional.

I have the utmost confidence that this great school will continue to shine. The staff, students, parents, community, and leadership at RMHS will continue to excel keeping this exciting new campus moving in its innovative and successful direction.

We have done so many great things together and in a short time you will see our most current results which will show growth and progress toward meeting and exceeding expectations.

The process to replace my position has already begun and a new principal will be announced very soon. Rest assured that Rancho Mirage High School is and will continue to be in great hands.
